Executive level decisions can be made in real time - from virtually anywhere - with PowerHealth OnDemand Executive Performance Analytics. OnDemand Executive Performance Analytics provides the fast track to visualizing your service lines for profit and loss, physician and administrative utilization, reducing costs and driving accountability - all critical to achieving and sustaining financial stability. PowerHealth delivers on demand performance management through an intuitive and interactive analytics platform that can be implemented in days - not months or years, in order for you to achieve goals in less time, with absolute control.

[Beyond reporting, OnDemand's Guided Intelligence™ provides organized answers you need for true performance improvement](#)

PowerHealth OnDemand®'s unique Guided Intelligence™ effectively streamlines data and information processes for executives, management and analysts that will help turn this data into actionable intelligence throughout your enterprise. Guided Intelligence™ utilizes predictive analytics to aggregate data from disparate sources and then provides answers you need to achieve breakthrough performance throughout your operations.

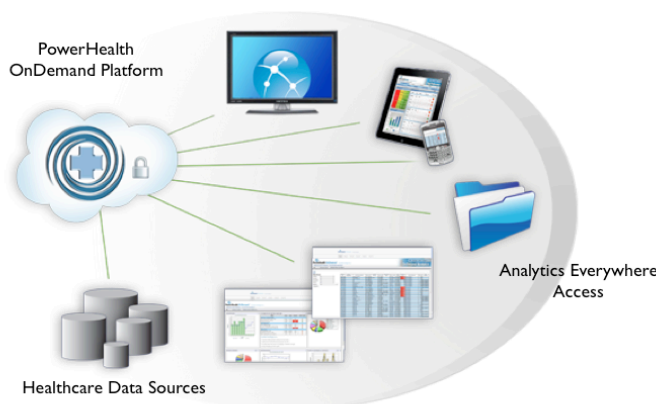

[Intelligence leads to measurable performance improvements](#)

Using OnDemand Executive Performance Analytics, your hospital gains greater visibility into business, clinical operations, quality performance drivers, and comparative benchmarks. The end result is breakthrough in utilization efforts, reductions in patient length of stay, and on demand analysis required to support pay-for-performance initiatives. Our solid platform and innovative tools help you uncover key performance variances, isolate root causes, and provide solutions to capitalize on opportunities for improvement.

[With OnDemand Executive Performance Analytics you gain:](#)
