

## OnDemand Quality Performance Analytics™

Ensuring quality outcomes through visibility to real time performance

Manage  
Readmissions

Determine  
Quality Outcomes

Core Measures

Daily Statistics

Management decisions can now be made in real-time - from virtually anywhere - with PowerHealth OnDemand®'s Quality Performance Analytics. OnDemand's Quality Performance Analytics provides the immediate insight to visualizing your quality performance for managing readmissions, determining quality outcomes, understanding core measures, and driving accountability - all critical to achieving and sustaining quality of care initiatives. OnDemand delivers performance management availability 24/7 through our intuitive and interactive analytics platform that can be implemented in days - not months or years, in order for you to achieve goals in less time, with absolute control.

Beyond reporting, OnDemand's Guided Intelligence™ provides organized answers you need for true performance improvement

PowerHealth OnDemand®'s unique Guided Intelligence™ effectively streamlines data and information processes for executives, management and analysts that will help turn this data into actionable intelligence throughout your enterprise. Guided Intelligence™ utilizes predictive analytics to aggregate data from disparate sources and then provides answers you need to achieve breakthrough performance throughout your operations.

OnDemand Intelligence leads to measurable improvements

Using OnDemand Quality Performance Analytics, your hospital gains greater visibility into quality performance drivers and comparative benchmarks. The end result is breakthrough in ensuring quality outcomes, increasing utilization efforts, reductions in patient length of stay, and on demand analysis required to accurately manage the impact of readmissions. Our solid platform and innovative tools help you uncover key performance variances, isolate root causes, and provide solutions to capitalize on opportunities for improvement.

With OnDemand Quality Performance Analytics, you gain:

- **Readmissions Management** - Prepare your organization for the major impacts on reimbursements tied to avoidable readmissions - starting today! OnDemand isolates patient readmissions through trend and gap analysis, reveals financial risks linked to payer mix over any time period, and enables root cause analysis that will lead to action.
- **Quality Outcomes Performance** - Visual interpretations of performance management through dynamic dashboards, intuitive analysis grids, and access to ultimate detail.
- **Core Measures Performance** - Platform provides immediate visibility and tracking to monitor Core Measures for trends or gaps that may adversely affect quality outcomes and business performance.
- **Clinical Quality Statistics** - Near real-time data access for monitoring patient quality statistics that provides visual interpretations and actionable intelligence. The solution provides user self-service access and reporting including automated distribution to significantly reduce overhead and costs.

## From Dashboards to Ultimate Details - the benefits are right in front of you

- *No capital costs* - PowerHealth does all the work of managing the technology so you can focus on managing your hospital.
- *Anytime, anywhere access* - Web-hosted and entirely managed for you, the PowerHealth OnDemand® Platform brings the 'on-demand' to your organization in real-time.
- *Proactive reporting and efficiency* - The solution automates the transfer of data into an easy-to-navigate platform so your reporting is ready, accurate, and easy to distribute. And comes with the exclusive PowerHealth Guided Intelligence™ and accountability for all users.
- *Savings and peace of mind* - OnDemand eliminates costly overhead, proprietary tools, and learning curve.
- *Gain focused insight* into your organization turning data into actionable intelligence!

## A future-proof foundation to support Healthcare's shifting paradigm

Our HIPAA and SAS 70 certified data centers, secure network, and integration with leading healthcare information systems form the foundation of our PowerHealth OnDemand® services. With our PowerHealth OnDemand® Platform, your organization benefits from:

- **No software or hardware to buy, install or maintain**
- **Flexibility and scalability to support organizations of any size and patient volumes**
- **Proven low total cost of ownership**
